

Los Charcos

About Los Charcos

This is the Costa Teguise's most northerly beach. It is characterised by the strong winds further out to sea and its pleasant bathing area nearer the shore, which is of pristine white sand. Various important international windsurfing competitions have been held here and fans of this sport find this to be an ideal place to practise. The beach is flanked by two large tourism complexes. On one side is the Gran Meliá Salinas and on the other side, Lanzarote Sands Beach, more oriented towards family tourists.
